

Lochinvar[®]

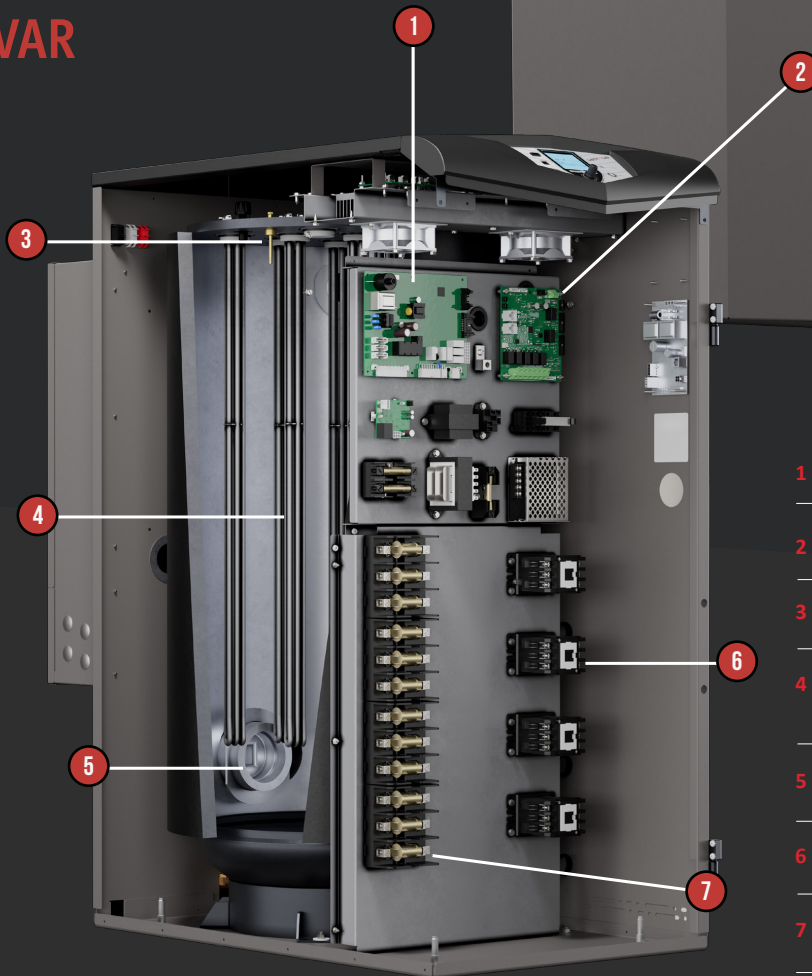

LECTRUS[™]

LECTRUS commercial electric boilers bring yet another solution to Lochinvar's already diverse product portfolio.

Whether the goal is decarbonization or creating a dual fuel heating system, LECTRUS is the solution. LECTRUS is not just another electric boiler, but a heat source built with the same expertise and quality that continues to recognize Lochinvar as an industry leader in commercial hydronic heating.

NO ONE BRINGS IT ALL TOGETHER LIKE LOCHINVAR

- 15 - 150 KILOWATTS
