SPAH2O

Electronic Shower Valve

The SPAH2O Electronic Shower Valve is a thermostatic, pressure-balancing valve with an electronic mixer CPU. Rigorously designed with the durable engineering that defines MrSteam, the SPAH2O syncs with the iSteamX control offering complete shower control with a touch of a finger. SPAH2O and iSteamX... it's time for the ultimate shower experience.

The SPAH2O electronic shower valve is a powerful innovation to help bring wellbeing to life. The iSteamX syncs perfectly with the new electronic shower valve which can be controlled straight from the iSteamX control, eliminating the need for separate controls.

SPAH2O Electronic Shower Valve

- Dimensions: 11" x 2.5" x 9.5"
- Easily pause and resume shower
- Auto shutoff and anti-scalding regulator
- Powerful and reliable safety alarms
- Easily mounts directly to the wall
- Connect up to 3 shower fixtures
- Two outlets may be used at one time
- Flow Rate (at 45 PSI, free flow, mixed water)
- Single outlet 1.1 gpm to 5.5 gpm
- Two outlets 1.1 gpm to 7.4 gpm (total)
- SpAH2O is intended to be used with fixtures marked for use with automatic compensating valves rated at 2.2 GPM or higher flow rate

— Single Control

Controlled by the iSteamX controller, eliminating the need for separate shower controls. *iSteamX sold separately*

— Easy Maintenance

SPAH2O valve features streamlined maintenance, including built-in thermal disinfection and self-cleaning.

— Long Product Life

The SPAH2O has no cartridges, pulleys, gears, electric motors, or similar parts that need to be recalibrated or replaced, dramatically lengthening product life.
