

Pietro Fiorentini

Safe, Reliable and High Performance

The GOVERNOR family of regulators are ideal for a wide range of residential through large industrial applications.

Materials used in construction of GOVERNOR regulators make them suitable for Natural Gas, LPG, Propane air and other non-corrosive gases.

The Governor

Balanced Valve Design Provides Increased Capacity

- » High 500:1 turndown
- » Stable regulation from low to high flow
- » Complete lockup in absence of gas flow
- » 100% bubble tight shutoff

Double Diaphragm with Internal Vent Limiter

- » Added safety, security, and greater reliability of service
- » Non-removable for indoor/outdoor installations

External Vent Limiter

- » Reduces piping costs
- » Complies with CSA guidelines
- » Eliminates costly vent piping for indoor installations
