## REHAU FIREPEX® Residential Fire Sprinkler System

Designed to prevent flashover (total involvement of the fire) in the room of fire origin, where sprinklered, and to improve the chance for occupants to escape or be evacuated.

When the heat from a fire activates a fire sprinkler, pressurized water from the piping system is discharged.

Combining flexibility and security with all the benefits from our installer-friendly PEXa plumbing system.

### Key benefits:

- Installation speed with flexible RAUPEX® pipe, EVERLOC+® and FIREPEX® fittings
- Integrated mounting brackets with FIREPEX fittings
- Better freeze-break resistance with RAUPEX pipe
- Pressure test immediately
- Stand-alone and Multipurpose sprinkler applications.
- Single Family, Multi-Family Dwellings and Manufactured Homes
- National Fire Protection Association (NFPA) Standard 13D
- International Residential Code Section (IRC) P2904
- 25-year limited warranty
